

Syllabus for Graduate School of Economics

Subject	Microeconomics I (E)	Semester, Date and Period of the class	Fall Semester Thursday, 4th Period
Subject selection	Basic Courses	Years	1-2
Instructor	Maria MARTIN-RODRIGUEZ (Graduate School of Economics)		
<p>Purpose and aim of the class: The course is designed to improve the research ability of the students by describing the basic framework used in Economics and its application to real problems. We will explain the interaction of consumers and producers in perfectly competitive markets, and how the simple but powerful concepts of demand and supply determine the equilibrium (aggregate production and price level). We will also study why the markets are usually, but not always, an efficient way of allocating the scarce resources.</p>			

Class content

1 (October 4)	Introduction.
2 (October 11)	Basic Concepts and Two Simple Models.
3 (October 18)	The Gains from Trade. <i>Problem Set 1.</i>
4 (October 25)	<i>Quiz 1.</i> The Demand.
○;5 (October 26)	The Demand. <i>Problem Set 2.</i>
6 (November 1)	The Supply.
○;7 (November 2)	The Supply. <i>Problem Set 3.</i>
8 (November 8)	<i>Quiz 2.</i> The Market Equilibrium.
9 (November 15)	The Public Intervention.
10 (November 22)	The Public Intervention. <i>Problem Set 4.</i>
11 (December 6)	<i>Quiz 3.</i> The Monopoly.
12 (January 10)	The Monopoly. <i>Problem Set 5.</i>
13 (January 17)	Externalities and Public Goods.
14 (January 24)	Externalities and Public Goods. <i>Problem Set 6.</i>
15 (January 31)	Final Exam.
<p>Evaluation: 3 quizzes (20% each) and a final exam (40%).</p>	
<p>Direction for preliminary study: None.</p>	
<p>Textbooks and Reference books: Mankiw, N. Gregory, "Principles of Microeconomics," International edition of 6th revised edition, South-Western, 2012.</p>	
<p>Notice to students:</p> <ol style="list-style-type: none"> 1) Office hours: Mondays, 9 – 10. 2) First lecture: October 4th. 	

Subject	Econometrics I (E)	Semester, Date and Period of the class	Fall Semester Thursday, 2nd Period
Subject selection	Basic Courses	Years	1-2
Instructor	Maria MARTIN-RODRIGUEZ (Graduate School of Economics)		
<p>Purpose and aim of the class: The course is designed to improve the research ability of the students by describing the basics of elementary statistics, which in turn will prepare them for learning linear regression analysis in Introductory Econometrics II. The emphasis will be on understanding the assumptions behind various statistical tests, so that students can correctly interpret the statistical results. This course will cover descriptive statistics, basic probability theory, and an introduction to statistical inferences.</p>			

Class content

1 (October 4)	Descriptive Analysis and Presentation of Single-Variable Data.
2 (October 11)	Descriptive Analysis and Presentation of Bivariate Data.
3 (October 18)	Probability I: Probability of Events.
4 (October 25)	Probability II: Conditional Probability of Events; Rules of Probability.
○;5 (October 26)	Probability III: Mutually Exclusive Events and Independent Events.
6 (November 1)	<i>Problem Set 1.</i>
○;7 (November 2)	<i>Quiz 1.</i>
8 (November 8)	Probability Distributions.
9 (November 15)	Normal Probability Distributions.
10 (November 22)	Applications of Normal Distributions.
11 (December 6)	Sample Variability.
12 (January 10)	Statistical Inferences.
13 (January 17)	<i>Problem Set 2.</i>
14 (January 24)	<i>Quiz 2.</i>
15 (January 31)	Final Exam.
<p>Evaluation: 2 quizzes (30% each) and a final exam (40%).</p>	
<p>Direction for preliminary study: None.</p>	
<p>Textbooks and Reference books: Textbook: Johnson, R., Kuby, P., 2012. Elementary Statistics, International edition of the 11th revised edition, Cengage Learning.</p>	
<p>Notice to students: 1) Office hours: Tuesdays, 9 – 9:30. 2) First lecture: October 4th.</p>	

Subject	Business History II (E)	Semester, Date and Period of the class	Fall Semester Friday, 3rd Period
Subject selection	Basic Courses	Years	1-2
Instructor	Naoki FUKUZAWA (Graduate School of Economics)		
Purpose and aim of the class:			
In order to understand the logic of the dynamics of the modern economic society, it is essential to know how the modern society was originally formed, and what kind of structure has been brought to the society. This course enhances applicable ability in considering the concrete coherency of the change in the predominant form of the enterprises in the modernization in various circumstances in various countries and regions of the world, and in the ongoing changing relationship between each regions and in the structure of the world economy.			

Class content

1	Introduction
2	The Economic Development in the Nineteenth Century --- Basic Determinants
3	The Institutional Framework of the Economy in the Nineteenth Century
4	Patterns of the Industrialization --- Great Britain, France
5	Patterns of the Industrialization --- Germany, the United States
6	Patterns of the Industrialization of the Latecomers --- Imperial Russia, Japan
7	Finance and Banking, and the Role of the State in the late Nineteenth Century
8	The Growth of the World Economy in the Nineteenth Century --- The Free Trade Era
9	The Great Deflation and the Return to Protectionism; so called Imperialism
10	Overview of the World Economy at the Beginning of the Twentieth Century
11	The New Form of the Enterprises
12	International Economic Disintegration after WWI
13	The Great Depression and the Aftermath
14	Rebuilding the Economy after WWII --- Perspective
15	Summary
Evaluation:	
Criterion for evaluation is students' understanding about the logic of the historical development to the modern economic society, the structure of the world economy and ongoing change in the form of the enterprises. It will be determined from: Essays: 50%, Active Participation to the discussion: 10%, Students' Presentation: 40%. The course withdrawal system is not used. It will be "absent" if students do not submit the final reports.	
Direction for preliminary study: To read the part of the textbook for the next time will be at least required.	
Textbooks and Reference books:	
Cameron, Rondo / Neal, Larry, A Concise Economic History of the World --- From Paleolithic Times to the Present, 4th ed., Oxford Univ. Press, 2003. (Mainly the second half of the text will be used.) Caution! This is not the newest version. (So you could get a used one worth the price.)	
Notice to students:	
A presentation in the class for a certain part of the text will be obligatory. Two essays will be required at the end of the semester. For Japanese Students there is translation of the textbook: 速水融『概説 世界経済史Ⅱ』東洋経済新報社、2013年 The same textbook (mainly the first half) will be used next year (in the lecture 'European Economic History A' in the autumn semester 2019).	

Subject	Special Lecture for Basic Subjects (International Economics B) (E)	Semester, Date and Period of the class	Fall Semester Monday, 5th Period
Subject selection	Basic Courses	Years	1-2
Instructor	Akihiko YANASE (Graduate School of Economics)		
Purpose and aim of the class:			
This course offers materials in international trade theory under imperfect competition. The goal is to enhance students' research ability by complete understanding of basic models of international trade and their applications.			

Class content

1	Introduction and mathematical preliminaries
2	Review of trade models under perfect competition
3	Monopolistic competition and international trade: Preliminaries
4	Monopolistic competition and international trade: Basic model
5	Monopolistic competition and international trade: Firm heterogeneity
6	Foreign direct investment: Export vs. FDI
7	Foreign direct investment: Productivity and FDI
8	International Oligopoly: Preliminaries
9	International Oligopoly: Third market model
10	International Oligopoly: Reciprocal market model
11	Strategic trade policy
12	Applications of strategic trade policy
13	Other topics (trade and the environment, trade and growth, economic geography, etc.)
14	Summary
15	Final exam
Evaluation: Participation in class, homework, and final exam.	
Direction for preliminary study: Review basics in undergraduate-level microeconomics and noncooperative game theory.	
Textbooks and Reference books: To be announced in the first class.	
Notice to students:	

Subject	Special Lecture for Basic Subjects (Introduction to Japanese Business) (E)	Semester, Date and Period of the class	Fall Semester Tuesday, 2nd Period
Subject selection	Basic Courses	Years	1-2
Instructor	Yoshio SANO (Graduate School of Economics)		
<p>Purpose and aim of the class:</p> <p>This class looks at how Japanese businesses have evolved in the past and where they will go in the future. Case studies are used. Active participation of the students is required. We will organize group study and group presentation at the end of the term. More detailed syllabus will be distributed during Introduction. This lecture aims to foster the applicable ability.</p>			

Class content

1	Introduction
2	Outline of Japanese Economy
3	Principles and Practices of International Trades
4	Global Competition
5	History of Japanese Economic Development (1)
6	History of Japanese Economic Development (2)
7	History of Japanese Economic Development (3)
8	A Case of a Japanese Company (1)
9	A Case of a Japanese Company (2)
10	Japanese Industry Outlook (1)
11	Japanese Industry Outlook (2)
12	Japanese Industry Outlook (3)
13	Guest Speaker
14	Group Presentation (1)
15	Group Presentation (2)
<p>Evaluation: Class attendance (40%) Participation in discussion (30%) Group Presentation (30%).</p>	
<p>Direction for preliminary study: Reading Japanese newspapers written in English is recommended.</p>	
<p>Textbooks and Reference books: Teaching materials will be uploaded in the course website prior to lectures which students are required to download and print by themselves.</p>	
<p>Notice to students: Commitment to class and interaction with other students are highly required</p>	

Subject	Special Lecture for Basic Subjects (Introductory Review on Economics)(E)	Semester, Date and Period of the class	Fall Semester Monday, 5 th Period
Subject selection	Basic Courses	Years	1-2
Instructor	Maria MARTIN-RODRIGUEZ (Graduate School of Economics)		
<p>Purpose and aim of the class: The course is oriented to teach the basics of Economics in a problem-motivated, interactive way. It also intends to develop the students' understanding of the economics of the world around them, which in turn improves their research ability. The method is to ask interesting questions first, to look at the evidence from around the world and from history, and then to introduce models that help to answer our questions. We will cover topics on economic decision making, economic relationships and interactions, and markets.</p>			

Class content

1 (<i>October 15</i>)	The Capitalist Revolution I.
○;2 (<i>October 16</i>)	The Capitalist Revolution II.
3 (<i>October 22</i>)	Technology, Population and Growth I.
○;4 (<i>October 23</i>)	Technology, Population and Growth II.
5 (<i>October 29</i>)	Scarcity, Work and Choice I.
○;6 (<i>October 30</i>)	Scarcity, Work and Choice II.
7 (<i>November 5</i>)	Social Interactions I.
8 (<i>November 12</i>)	Social Interactions II.
9 (<i>November 19</i>)	Property and Power: Mutual Gains and Conflict.
10 (<i>November 26</i>)	The Firm: Owners, Managers, and Employees.
○;11 (<i>November 29</i>)	The Firm and its Customers.
12 (<i>December 3</i>)	Supply and Demand: Price-Taking and Competitive Markets.
○;13 (<i>January 8</i>)	The Labor Market: Wages, Profits, and Unemployment.
14 (<i>January 21</i>)	Banks, Money, and the Credit Market.
15 (<i>January 28</i>)	Final exam.
<p>Evaluation: Weekly problem sets (60%) and a final exam (40%).</p>	
<p>Direction for preliminary study: None.</p>	
<p>Textbooks and Reference books: All the materials are available for free at https://www.core-econ.org/</p>	
<p>Notice to students:</p> <ol style="list-style-type: none"> 1) Office hours: Tuesdays, 9:30 – 10. 2) First lecture: October 15th. 	

Subject	Special Lecture for Basic Subjects (Introductory Review on Management) (E)	Semester, Date and Period of the class	Fall Semester Wednesday, 3 rd Period
Subject selection	Basic Courses	Years	1-2
Instructor	Yasuhiro DOI (Graduate School of Economics) Natsumi Shiga (Graduate School of Economics)		
Purpose and aim of the class: Students will have chances to see and understand a variety of business administration topics which are focusing on mainly Japanese styles of management. Students will have opportunities to examine business performances through some experimental group works. Through the lectures, students may have a chance to find a skill or a direction which they would like to use and pursue in the future as a career prospect.

Subject	Special Lecture for Basic Subjects (International Accounting B) (E)	Semester, Date and Period of the class	Fall Semester Friday, 2nd Period
Subject selection	Basic Courses	Years	1-2
Instructor	Akihiro NOGUCHI (Graduate School of Economics)		
Purpose and aim of the class:			
The lecture is intended to provide an opportunity for students to learn and understand international aspects of accounting. Unique feature of Japanese accounting would be also explained. This course enhances Applicable Ability.			

Class content

1	Introduction
2	History of Japanese Accounting and Standards
3	JMIS
4	Causes and examples of international differences
5	International classification of financial reporting
6	International harmonization
7	Financial reporting by listed groups
8	International Financial Reporting Standards
9	Different versions of IFRS practice
10	Financial reporting in the United States
11	Key financial reporting topics
12	Political lobbying on accounting standards
13	Essay presentation
14	Essay presentation
15	Summary
Evaluation: Attendance (25%), homework (25%), and oral presentation (25%), essay (25%). A: 100-80 (as for undergraduate students S: 100-90), B: 79-70, C: 69-60, F 59-0 The procedure for "withdrawing the course" will not be applied. Not submitting essay will be graded as 'Absent'.	
Direction for preliminary study: You will be required to read all of the assigned readings and prepare presentation for the assigned accounting issues. You are responsible for knowing about any changes in the syllabus, or any other information announced in class. You are responsible to attend every class. No make-ups will be allowed without prior approval by the instructor. Essay has to be short; A4 size paper 4 pages.	
Textbooks and Reference books: Christopher Nobes & Robert B. Parker, Comparative International Accounting, Pearson Education Limited; 13th edition.	
Notice to students: Ability to speak and discuss accounting and bookkeeping in English will be required to attend the class. Additional makeup class will be scheduled on Friday 8:45-10:15.	

Subject	Special Lecture for Basic Subjects (Practical Management I) (E)	Semester, Date and Period of the class	Fall Semester Wednesday, 5th Period
Subject selection	Basic Courses	Years	1-2
Instructor	AHMADOVA Mehriban, NOGUCHI Akihiro (Graduate School of Economics)		
Purpose and aim of the class:			
This course aims to develop a basic understanding of management research by reading famous research papers published in HBR. This course is for basic analytical ability.			

Class content

1	Introduction
2	Meeting the Challenge of Disruptive Change
3	Competing on Analytics
4	Managing Oneself
5	What Makes a Leader
6	Putting the Balanced Scorecard to Work
7	Innovation: The Classic Traps
8	Leading Change: Why Transformation Efforts Fail
9	Marketing Myopia
10	What Is Strategy?
11	The Core Competence of the Corporation
12	Presentation of final essay (1)
13	Presentation of final essay (2)
14	Presentation of final essay (3)
15	Summary
Evaluation: Attendance (25%), homework (25%), and oral presentation (25%), essay (25%). The procedure for “withdrawing the course” will not be applied. Not submitting essay will be graded as ‘Absent’.	
Direction for preliminary study:	
Textbooks and Reference books: <i>HBR'S 10 Must Reads: The Essentials</i>	
Notice to students: You will be required to read all of the assigned readings and prepare presentation. You are responsible for knowing about any changes in the syllabus, or any other information announced in class. You are responsible to attend every class. No make-ups will be allowed without prior approval by the instructor.	

Subject	Theme Studies (Introductory Accounting I) (E)	Semester, Date and Period of the class	Fall Semester Monday, 2nd Period
Subject selection	Specialized Courses	Years	1-2
Instructor	Akihiro NOGUCHI (Graduate School of Economics)		
Purpose and aim of the class:			
Accounting is called “language of business”, as they are used to communicate among interested parties of the business. Students will be learning very basics of how to write (make entries) and read (financial statement analysis) that “language”. This course enhances Applicable Ability.			

Class content

1	Introduction
2	Language of Business
3	Accounting Information System
4	Accounting Cycle
5	Financial Statements
6	Accrual Basis Accounting
7	Worksheet
8	Income Statement
9	Statement of Financial Position
10	Statement of Cash Flow
11	Accounting Standards
12	International Accounting Convergence
13	Essay Presentations
14	Essay Presentations
15	Summary
Evaluation: Attendance (25%), homework (25%), and oral presentation (25%), essay (25%). A: 100-80, B: 79-70, C: 69-60, F 59-0 The procedure for “withdrawing the course” will not be applied. Not submitting essay will be graded as ‘Absent’.	
Direction for preliminary study: You will be required to read all of the assigned readings and prepare presentation for the assigned accounting issues. You are responsible for knowing about any changes in the syllabus, or any other information announced in class. You are responsible to attend every class. Textbooks and Reference books: Donald E. Kieso, Jerry J. Weygandt, Terry D. Warfield, Intermediate Accounting, IFRS Edition, Third Edition Wiley, 2018.	
Notice to students: Ability to speak and discuss accounting and bookkeeping in English will be required to attend the class.	

Subject	Theme Studies (International Communication) (E)	Semester, Date and Period of the class	Fall Semester Thursday, 5 th Period
Subject selection	Specialized Courses	Years	1-2
Instructor	Yasuhiro DOI (Graduate School of Economics) Natsumi SHIGA (Graduate School of Economics)		
Purpose and aim of the class:			
In this course, students will have opportunities to conduct group works. In each class, we try to form several mixed-groups of Japanese students and international students to discuss about different types of issues and topics. The purpose of this course is to enhance the ability to persuade people who have different cultural backgrounds to understand and conclude your team resolution. The course will be taught mainly in English, but we may ask students to use Japanese and non-verbal communication for a group work.

15	Conclusion
Evaluation: Attendance and Participation	
Direction for preliminary study: Students should prepare some preliminary researches about each topic given in advance.	
Textbooks and Reference books:	
Notice to students: This course belongs to lecture series of the “Global Soft-Infrastructure Program (GSIP).” It is highly recommended to join this course for students who are willing to apply for the outbound program. In case of too many registration, we will limit the number of students.	

Subject	Theme Studies (Introductory Management Accounting) (E)	Semester, Date and Period of the class	Fall Semester Wednesday, 1-2nd Period
Subject selection	Specialized Courses	Years	1-2
Instructor	Anura De Zoysa (Graduate School of Economics)		

Purpose and aim of the class:

This subject examines the role of management accounting in the contemporary business environment to accumulate, analyse and use financial and non-financial information to aid management in planning, control and strategic decision-making. It aims to enhance students' basic analytical abilities in relation to product cost analysis, profit planning and control measures, and relevant cost analysis for short-term and long-term decision-making through application of various basic management accounting processes, tools and techniques used for effective use of organisational resources to create value for customers and the organization.

Class content

1	Introduction to management accounting
2	Cost concepts and terms
3	Job order costing
4	Process costing
5	Activity based costing and management
6	Cost-volume-profit analysis
7	Inventory costing (variable costing and absorption costing)
8	Test 1
9	The use of cost information in management decision-making
10	Capital budgeting and other long-run decisions
11	Budgetary planning
12	Budgetary control- Flexible budgets
13	Standard costs and variance analysis
14	Test 2
15	Decentralization and performance evaluation Business Analysis Report due

Evaluation: To be eligible to pass this subject, students must satisfy the following requirements:

1. Attend 50% of the classes. Please note that failure to attend 50% of the classes may lead to a fail grade.
2. Attend and complete the two class tests.
3. Complete and submit the business analysis report
4. Achieve an overall mark of at least 50%, for the two class tests and the business analysis report.

Direction for preliminary study:

Lectures will organise, explain and simplify the contents in the textbook. Each topic will put into context within the larger framework of the subject. The lectures are the first place that examples of problems will be presented and worked through. A lecture note is provided to students prior to each week's lecture.

At the end of each lecture, students are assigned a few tutorial questions to be discussed at the beginning of following week's lecture. Tutorials are intended to provide an interactive learning environment, by supporting students sharing ideas and questions, and supporting each other's learning. The tutorial questions selected from the text for discussion are linked to the topic covered in the lectures. Students should attempt the tutorial questions assigned prior to the tutorial and should involve in class discussions.

Details on the class tests and the business analysis report will be made available to students on the subject website.

Notice to students:

Subject	Theme Studies (Health and Development) (E)	Semester, Date and Period of the class	Fall Semester Thursday, 1st Period
Subject selection	Specialized Courses	Years	1-2
Instructor	Dirga Kumar Lamichhane (Graduate School of Economics)		
Purpose and aim of the class:			
This course provides students with an understanding of the variety of concepts of health and development, and how they are measured, relationships between health and development, and economic components of development and their specific interactions with the health outcomes.			

Class content

1	Determinants of health
2	Absenteeism due to ill health
3	Air pollution and health
4	Health and development: (Case study)
5	Concept of health and development
6	Health production functions and demand for health care
7	Determinants of health
8	Economic growth and health
9	Economic and rise in obesity
10	Technology and health care spending
11	Economic evaluation of health care programs
12	Economic cost of absenteeism due to ill health
13	Environmental health and development
14	Disparities in environmental health
15	Causal effects of air pollution on health
Evaluation:	
The course will be evaluated via a case study, worth 30% of the final grade, and group projects and presentation seminar worth the remaining 70%.	
Direction for preliminary study:
